C

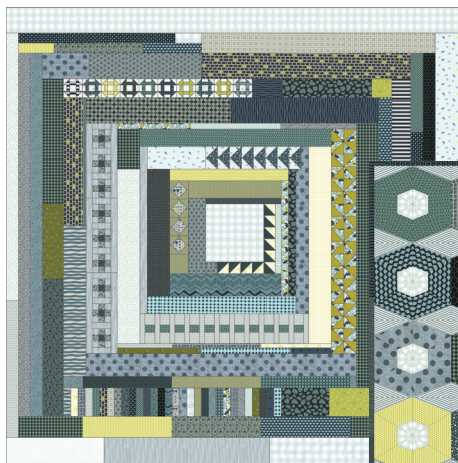

I am a scrap quilter to my core. I love the adventure of combining different prints, colours and styles of fabric to create my quilt designs. I've applied my "scrapy" style when designing each range with Moda, and after many years of working in this way I set myself a challenge with this latest line Greenstone.

My plan was to create a small range with a narrow colour palette that would still achieve a scrap quilt when pieced together. The team at Moda helped me to accomplish this by working closely with me to perfect each colour tone and I'm thrilled with the result. This is officially my (new) favourite range.

Within the Greenstone collection, there are 4 x full width prints which can be used as backgrounds and borders. The remaining 12 fabrics are an update to my "lollies" – 4 varied prints (a mixture of spots, checks, geos and florals), each 10" wide across the width of each fabric.
